RAÚL GUSTAVO MARTÍNEZ UMAÑA

+52 55 7490 8700 - raul200402@outlook.com

Freshly graduated engineer experienced in data and information analysis using Python, Pandas, and Excel. My work has involved KPI tracking, customer segmentation, retention analysis, and report generation. I have skills in SQL and Power BI, as well as training in data science.

SKILLS

- Python - Pandas, NumPy. Jupyter, scikit-learn
- SQL
- Microsoft Office - Excel, PowerPoint, Word, Outlook
- Power BI - Power Query, DAX
- Django - Django REST Framework
- Statistics - Descriptive statistics, Regression, Hypothesis testing
- Git/GitHub

EXPERIENCE

Web System Operator **2026**

Latamco y Estrategias Creativas

- Prepared weekly digital campaign performance reports, consolidating KPIs for traffic, registrations, participation, redemptions, and engagement.
- Analyzed over 60,000 weekly visits—segmented by date, location, traffic source, device, and operating system—to identify behavioral patterns.
- Presented period results and cumulative metrics using tables, rankings, and executive summaries to support the monitoring of promotions.

Data Science Assistant **2025**

LUYOA

- Developed an analysis workflow using Python and Pandas to transform data on customers, transactions, merchants, and loyalty programs into actionable business insights and KPIs.
- Analyzed churn rate, retention, customer lifetime value, repeat purchases, customer segmentation, and transaction trends to identify high-value and at-risk customers.
- Evaluated engagement levels with merchants and loyalty programs based on transaction activity, reward redemption, visit frequency, and customer behavior.

Backend Developer **2024 - 2025**

iOS Development Lab UPMX

- Supported server-side programming and database integration using APIs built with Django REST Framework, strengthening the application's back-end functionality.
- Collaborated with other development teams to facilitate the connection between APIs and front-end interfaces, enhancing technical collaboration on the project.

EDUCATION

- Universidad Panamericana, Master's Degree in Engineering **2025 - 2026**
- Universidad Panamericana, Diploma in Data Science **2024 - 2025**
- Universidad Panamericana, Specialization in Engineering and Project Management **2024 - 2025**
- Universidad Panamericana, Information Technology and Intelligent Systems Engineering **2020 - 2024**

COURSES AND CERTIFICATES

- Santander Open Academy, Cybersecurity Fundamentals **2026**
- DataCamp, Python Data Fundamentals **2024**
- Excel for Business and Data Analysis with Power BI **2022**
